

PLASIQ

Preliminary Catalogue 2020

***Not to be a motif of living things.**

PLASIQ is art imitating life in full form. Our designs allow even the busiest of home and commercial property owners to curate their space with the lush, nourishing comforts of greenery with minimal maintenance required, none to be exact. Highly adaptive and versatile, our objects are also customisable. Much like travel, nature, and aesthetic, PLASIQ's aim is to create opportunities for escapism in every space we occupy.

Objects

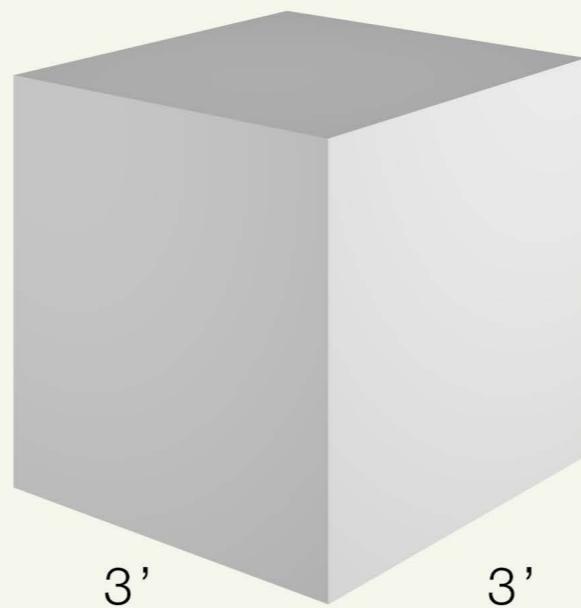

The Multiflora Cube™, 2019

The Multiflora Cube is ageless in its design, a self contained garden as an embellishment or centrepiece of any room. Five sides of meticulously crafted high quality dusted 3M vinyl allows for a unique view of the garden from every angle. Place a floor light underneath the cube or leave the open side against a window to add light dimension to your greenery.

\$1175 USD | Plasiq Garden / Dusted 3M vinyl (2 mil) on acrylic.

Available in three different sizes; **3x3x3, 2x2x2, 1x1x1.**

Leaning Slab™, 2019

One of our most versatile design pieces in the collection, the Leaning Slab, is particularly easy to incorporate into any given space. The piece, much like the collection itself, is the perfect balance of modern and minimal. The Leaning Slab is a subtle yet one-of-a-kind interior design element, leaving plenty of room for the end user's creativity. Light travels easily through the single panel creating an airy aesthetic around this piece. We offer a selection of stills to choose from when ordering a PLASIQ Leaning Slab. The dimensions of the Leaning Slab are 24x36..

\$550 USD | Plasiq Garden / Graphic transfer on 1/2" acrylic.

Standard size; **24 x 36".**

Material

As a recyclable material, vinyl allows PLASIQ pieces to be sustainable and environmentally friendly. Acrylic is also key to the design process. Considering its weather resistant properties, the light weight and optical clarity of acrylic makes it an essential catalyst in bringing PLASIQ objects to life.
